## One Window Solution Camp

LCF organizes One Window Solution Camps for the development of Disability Certificates and Special Computerized National Identity Cards (SCNICs) of Persons with Disabilities.

Since its establishment, the Gambat / Hingorja LCF DEPD Rehabilitation Center Gambat / Hingorja has made a significant impact on the lives of children with disabilities in Northern Sindh.

Although we have recently established but within this limited time of period total 588 children with different disabilities have been registered and CWDs are getting regular services at facility, through targeted interventions and ongoing support, many children have experienced slight improvements in their physical abilities, communication skills, and overall independence.

Moreover, the center's efforts have contributed to raising awareness about disability rights and promoting inclusive practices within the community.

## Provision of Assistive Devices

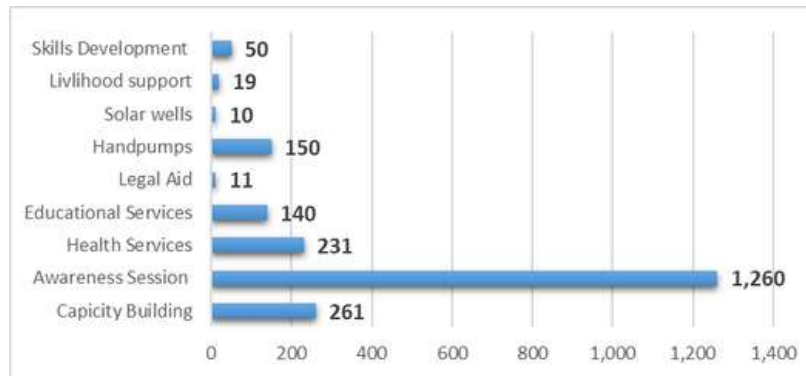

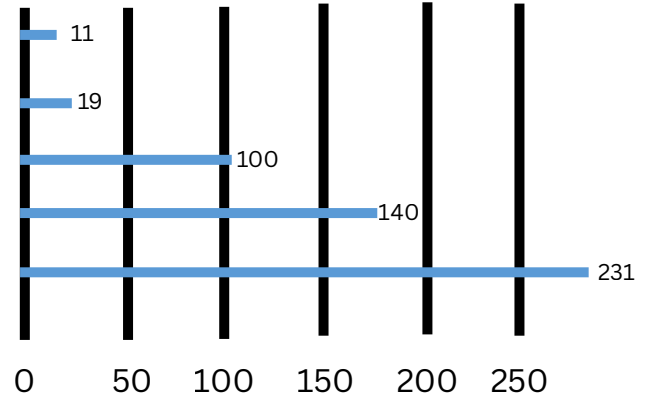

LCF in Collaboration with DEPD provides the assistive devices including Wheelchairs, Tricycles, Walkers, Hearing Aids, Crunches, and as per need of PWDs.

## M. Yaseen – From Pain to Play

At just 6 years old, M. Yaseen struggled with severe leg pain that limited his ability to walk and play. Through consistent physiotherapy and unwavering determination, he completed 42 sessions and gradually regained pain-free movement. Today, Yaseen is back on his feet—running, playing, and enjoying childhood with confidence and joy.

## Noor Mustafa – Steps Toward Hope

When Noor Mustafa arrived at LCF, he was unable to stand or walk, even with support. After 73 dedicated therapy sessions focused on strength, balance, and coordination, Noor achieved remarkable progress. He can now stand and walk with support—a powerful milestone that reflects resilience, expert care, and hope restored.

## Rimsha – Walking with Confidence

Born with inverted feet and balance challenges, 3-year-old Rimsha found it difficult to walk confidently. With early intervention and 24 tailored physiotherapy sessions at LCF-DEPD Rehabilitation Center, her alignment, balance, and coordination steadily improved.

Today, Rimsha walks independently and confidently—steady steps toward a brighter future.

## Tamseela – A Journey to Independence

Eight-year-old Tamseela came to LCF unable to walk and struggling to stand for long periods. Through a focused physiotherapy program of 18 sessions, she built strength, balance, and endurance.

By the end of her treatment, Tamseela achieved independent walking—reclaiming her mobility, confidence, and independence.
